WORK EXPERIENCE

Associate QA Manager
Clarivate

01/2022 - Present — *Chennai*

Achievements/Tasks

- Led 12 QA engineers across 5+ parallel projects; reduced production defect leakage by 25% through improved regression and UAT processes.
- Established quality dashboards and KPIs improving management visibility by 40%; drove risk-based testing strategies for release stability.
- Supported automation initiatives using Playwright and Python, contributing to 20% improvement in regression coverage.
- Leveraged Agentic AI for intelligent test case generation, improving test design efficiency and coverage by 20%.

Technical Lead QA
Clarivate Analytics

01/2018 - 01/2022 — *Bangalore*

Achievements/Tasks

- Executed comprehensive API test suites (Postman, REST) and UI validation across Chrome and Firefox, covering payloads, status codes, auth, and error handling.
- Led end-to-end and integration testing across 10+ major releases per year; reduced defect turnaround by 35% through structured RCA and Dev/IT coordination.
- Improved test coverage by 30% using boundary value analysis; supported CI/CD testing via Jenkins and GitHub, cutting manual regression effort by 20%.

Lead QA Engineer
Clarivate Analytics

01/2015 - 01/2017 — *Bangalore*

Achievements/Tasks

- Owned API and UI testing for 3+ core enterprise modules with zero critical production defects; developed test plans, traceability matrices, and regression suites.
- Coordinated UAT with enterprise clients and improved regression stability by 25% through systematic test case design and suite maintenance.

QA Engineer
Thomson Reuters

01/2013 - 01/2014 — *Bangalore*

Achievements/Tasks

- Executed 1000+ test cases for API, UI, and functional testing; logged 300+ defects with 95%+ accuracy; supported UAT for major releases.

Process Lead
Thomson Reuters

01/2007 - 01/2012 — *Chennai*

Achievements/Tasks

- Improved efficiency by 20% and reduced errors by 30%.
